

## CANINE WELL EXAM

Please complete and return to Canine Clubhouse 48 hours prior to your scheduled Clubhouse call

1. Have you noticed any problems with your pet such as abnormal appetite / urination / defecation, change in behavior, lumps on the skin, limping, etc?  Yes  No  
If yes, please describe:
  
2. What food do you feed your pet?
  
3. How much do you feed and how often?
  
4. What type of heartworm prevention do you give?
  
5. Have you missed any monthly doses of heartworm prevention?  Yes  No If yes, how many?
  
6. What type of flea / tick prevention do you give?
  
7. Is your pet on any medications currently?  Yes  No  
Please list any supplements, over the counter medications (aspirin, Benadryl, etc), and all prescribed by the veterinarian. Include dosing, frequency, and when it was last given.
  
8. AHDC recommends annual fecal testing. Intestinal parasites can cause disease in your pet and be passed to other animals and people in your home. Many of these parasites can be picked up from the soil or be carried in on your shoes/clothing. Would you like to have a fecal sample checked for intestinal parasites today?  Yes  No
  
9. Have you seen any fleas or ticks on your pet?  Yes  No
  
10. AHDC recommends annual testing for mosquito and tick-borne diseases. With one simple test, we can check for Heartworm, Lyme, Ehrlichia, and Anaplasma. These diseases often begin as asymptomatic infections that can eventually become fatal if not diagnosed in a timely manner. Would you like to have your dog tested today?  
 Yes  No
  
11. Do you provide dental care for your pet (ie. brushing, dental diet, water additives)?  Yes  No  
If yes, please describe:
  
12. We recommend annual wellness bloodwork that may reveal underlying conditions including kidney, liver, and thyroid disease (for pets 5 years and older). The bloodwork may show changes before you notice symptoms in your pet. Wellness bloodwork is also essential to provide a normal baseline for your pet that can be monitored for changes as they age. This bloodwork includes a fecal sample for all pets and a urine sample for dogs over 5 years of age. Would you like to have a wellness screening done today?  Yes  No
  
13. AHDC may recommend the following vaccines based on your pet's lifestyle. Please circle the vaccines you are interested in or know your pet is due for. After reviewing your record, the veterinarian will discuss a personalized vaccine plan for your pet.

RABIES – Required by state law and to attend Canine Clubhouse.

DISTEMPER (DALPP, DAPP) – Required to attend Canine Clubhouse. Protects your pet against the following contagious and potentially fatal diseases: Distemper, Adenovirus, Parainfluenza, Parvovirus, +/- Leptospirosis

BORDETELLA (Kennel Cough) – Required to attend Canine Clubhouse and recommended for any dog that is exposed to other dogs. This is a respiratory infection that can progress to serious pneumonia

CIV (Canine Influenza, Flu) – Recommended for any dog that is exposed to other dogs. This is a respiratory infection that can progress to serious and sometimes fatal pneumonia

LYME – Recommended for dogs in our area due to the high prevalence of this disease and its potential for serious illness and fatal complications

14. Would you like to be contacted by the veterinarian before any vaccines or services that you listed above are provided today?  Yes  No

15. If you would like to be contacted, what is the best number to reach you? (If we cannot reach you, no services or treatments will be provided for your pet). \_(\_\_\_\_\_)\_\_\_\_\_ - \_\_\_\_\_

**Animal Hospital of Dauphin County Cancellation Policy:**

No shows or cancellations without 48 hour notice will still be billed for the clubhouse call fee and will no longer be eligible for clubhouse calls. Some exceptions may be made by AHDC management if there are extenuating circumstances.

By signing below, I give permission to Animal Hospital of Dauphin County to examine my pet and agree to the cancellation policy above.
